

A schematic diagram of a cable 1. It consists of a central cable core 4, which is a long rectangle with a break in the middle indicated by two wavy lines. Two cable jackets, 2 and 3, are shown at the ends of the cable. Jacket 2 is at the top and jacket 3 is at the bottom. Both jackets are triangular in shape. Jacket 2 has a small rectangular component 5 on its left side and a small circular component 6 on its right side. Jacket 3 has a small circular component 6 on its left side and a small rectangular component 5 on its right side. The cable core 4 is connected to the jackets 2 and 3 by lines.
